Today is : **Tuesday January 5, 2010**

## Welcome

### This Year Is Also Our Capital District's 30<sup>th</sup> Anniversary Celebration Of National Engineers Week In The Capital District

**National Engineers Week** was created in 1951 by the [National Society of Professional Engineers](#) and coincided with President's Day. This is no coincidence, since George Washington, the 1st President of the United States was a land surveyor and engineer.

[E-Week](#) is held to create awareness of the contributions of engineers to society.

**The Capital District E-Week's main focus is to promote the Engineering Profession.** The purpose of this event is to raise public awareness of engineers positive contributions to quality of life, promote recognition among parents, teachers and students of the importance of a technical education and a high level of math, science and technology literacy, and motivates youth to pursue engineering careers in order to provide a diverse and vigorous engineering workforce.

We also offer numerous seminars with professional development hours (PDHs) over two days in one

This year we will hold seminars on **Thursday - February 25 & Friday - February 26, 2010.**

**Location:** [Albany Marriott - 189 Wolf Rd., Albany, NY.](#)
